

THE INTELLIGENT LEADERSHIP *IMMERSION* RETREAT: 2.5 DAYS

"The Intelligent Leadership Retreat program conducted by John Mattone for one of our clients was such a successful experience that we have been requested to invite John again to conduct another program for the company's top management. The professional design and contents of this Retreat experience along with John's speaking and coaching expertise are of the highest quality we have ever seen. Senior executives were highly engaged before, during and after the Retreat due to the multi-faceted learning approach John has embedded into this powerful executive development experience. We highly recommend John Mattone's unique executive development experience to companies and organizations all over the World".
