

# John Mattone's Culture & Culture Transformation 3-Day C-Level Retreat

"John Mattone's Cultural Transformation 3-Day Retreat Program conducted for the senior leadership team of one of our most valued clients was a major success. Senior executives were highly engaged before, during and after the Retreat due to the multi-faceted and comprehensive approach he used....combining lecture, group discussion, the results from his 5CCA culture assessment, team analysis and action-planning. For the first time we can remember, our client is leveraging what they learned through this annual retreat and are now making positive improvements to their culture and operations"
