

# MLEI COACHING DEBRIEF WITH ME™

JOHN MATTONE

DISCOVER YOUR LEADERSHIP CAPABILITIES & IGNITE YOUR LEADERSHIP DEVELOPMENT JOURNEY NOW!

The Matrone Leadership Enneagram Inventory (MLEI) is one of the most revealing “inner-core” leadership assessments that exists in the marketplace today. It is the strength, vibrancy and maturity of your character, self-concept, values, thinking patterns and emotional make-up (inner-core) that determines your success in the “outer-core” (skills and competencies). In other words, your success as a leader starts with greatness in your inner-core.

Your MLEI results will reveal both your inner-core strengths that need to be leveraged and the inner-core gaps and limiting factors that must be addressed by you to unleash your full-potential. John Mattone utilizes the MLEI as part of his executive coaching assignments and there is a global database of over 6500 successful leaders who have leveraged the “game-changing” insights and feedback generated by this unique and popular leadership assessment.
